**2020 REGISTRATION REMAINS OPEN**

The NK Jaguars Youth Football program registration remains open and we are in need of some additional players.

The Jags Football program has a rich tradition teaching young players how to play the game of football the right way, the safe way, and preparing players for the many other life lessons the game brings. Our past players have gone on to be Gatorade High School Football POY (twice in past five years), All-State, play college football, but **most importantly** many who have gone on to just be quality young men & women. Now is your child's opportunity to become part of that tradition, part of one of the best youth football programs in RI, and part of our family. For interested 8<sup>th</sup> graders, come get one year of tackle football in so you are better prepared for play at the high school level.
